

Signs of Spring Scavenger Hunt

Before I show off my colours, my name is Bud 	I can tell if you like butter 	I am soft and cushiony after it rains 
I am an insect who pollinates flowers 	My flowers are called catkins 	I flutter in the breeze 
Listen to me sing 	I'm known by some as the Tree of Life 	My berry is the colour of salmon eggs 
When I'm young I resemble the head of a stringed instrument 	I return in spring after a long journey 	I am a plant that has come from far away
