

Microtrek Wildlife Scavenger Hunt

Reminder Make your observations without harming the wildlife or their habitat!

Name: _____

Date: _____

Find Evidence That:

Humans and wildlife share environments.

Wildlife ranges from small in size to very big.

Humans and wildlife must adjust to their environment, move to a more suitable environment or perish.

People and wildlife experience some of the same problems

Wildlife is all around us, even if we don't see or hear it.

People and wildlife both need a place to live.
